About ARO Thinking

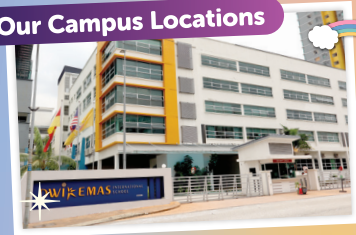

ARO Thinking, a Korean educational company, uses innovative EduTech solutions like **augmented reality and robotics** to inspire kids to explore technology, develop critical thinking, and embrace digital culture, fostering creativity and confidence for the future.

About Lil Unicorn Preschool

At Lil Unicorn, we **pioneer a Finnish-Asian hybrid approach**, combining Eastern discipline with Western creativity to foster curiosity and a love for learning.

Our Campus Locations

We Also Foster Entrepreneurship In Our Children!

Kids are naturally **adaptable and wholehearted, unburdened by fear of failure or over-analysis**. They are driven by curiosity to learn and explore fearlessly. At Lil Unicorn, we nurture these traits as the building blocks of entrepreneurship from an early age to future proof them.
