**We believe that every child has a unique light that deserves to shine brightly.**

By fostering an environment where curiosity makes up the foundation of all learning, we nurture children's inherent brilliance through play, support their growth through experiences, and encourage diversity through a holistic education.

We're dedicated to empower expressive and resilient children who are curious and collaborative, thus becoming responsible citizens of a globalised world.

### **Vision**

**To achieve holistic learning for future real-life experiences.**

### **Mission**

**To prepare children for lifelong success by providing a well-rounded education through play.**

**We provide a supportive environment for children which values diversity, promotes responsibility, and prioritises the holistic well-being of every child.**

With passionate educators engaging in meaningful partnerships with families and the community, we aspire to empower children to become compassionate and confident leaders of tomorrow.

### Integrated Trilingual & Innovative Curriculum

- We integrate real-world applications and diverse instructional methods which evolves with the needs and interests of children
- We adopt trilingual learning (English, Mandarin, Bahasa Malaysia)
- We provide a well-rounded education to pre-prepare children for lifelong success through play

### Experienced & Dedicated Educators

- We are a team of passionate, dedicated, and proactive educators
- We are experienced and qualified in Early Childhood Education, Special Education, and Nursing
- We are attentive to every child's needs and progress

### Learning Environment & Facilities

- Innovative & conducive open concept classrooms, a Creative Zone, and a Multipurpose Hall
- Library with appropriate reading materials and objects to promote creative learning
- Indoor Playground & Nature Nook to encourage social interactivity
- Balanced & healthy meal plans

# Our Curriculum

Here at Fireflies Early Years School, our curriculum is based on an integrated curriculum, providing a holistic learning experience for children. Our school also adopts a trilingual programme based on play-based education.

## Play-based Learning

As our school has a child-centred design, this allows us to guide them in their learning journey effectively by prioritising their curiosities and interests.

Through play, children can develop social and cognitive skills, mature emotionally, and gain the self-confidence they need to engage in new experiences and environments.

## Trilingual Programme

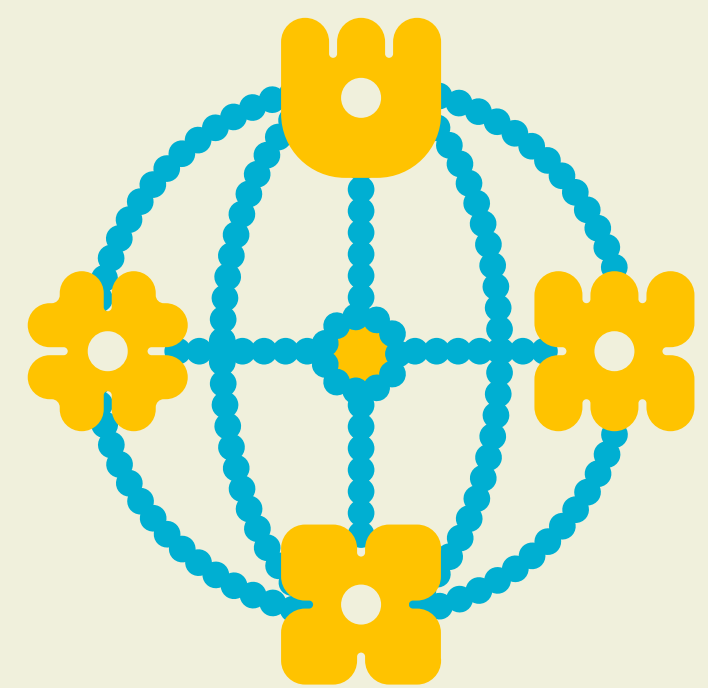

We believe learning multiple languages during early childhood will help your child have better access to the world around them.

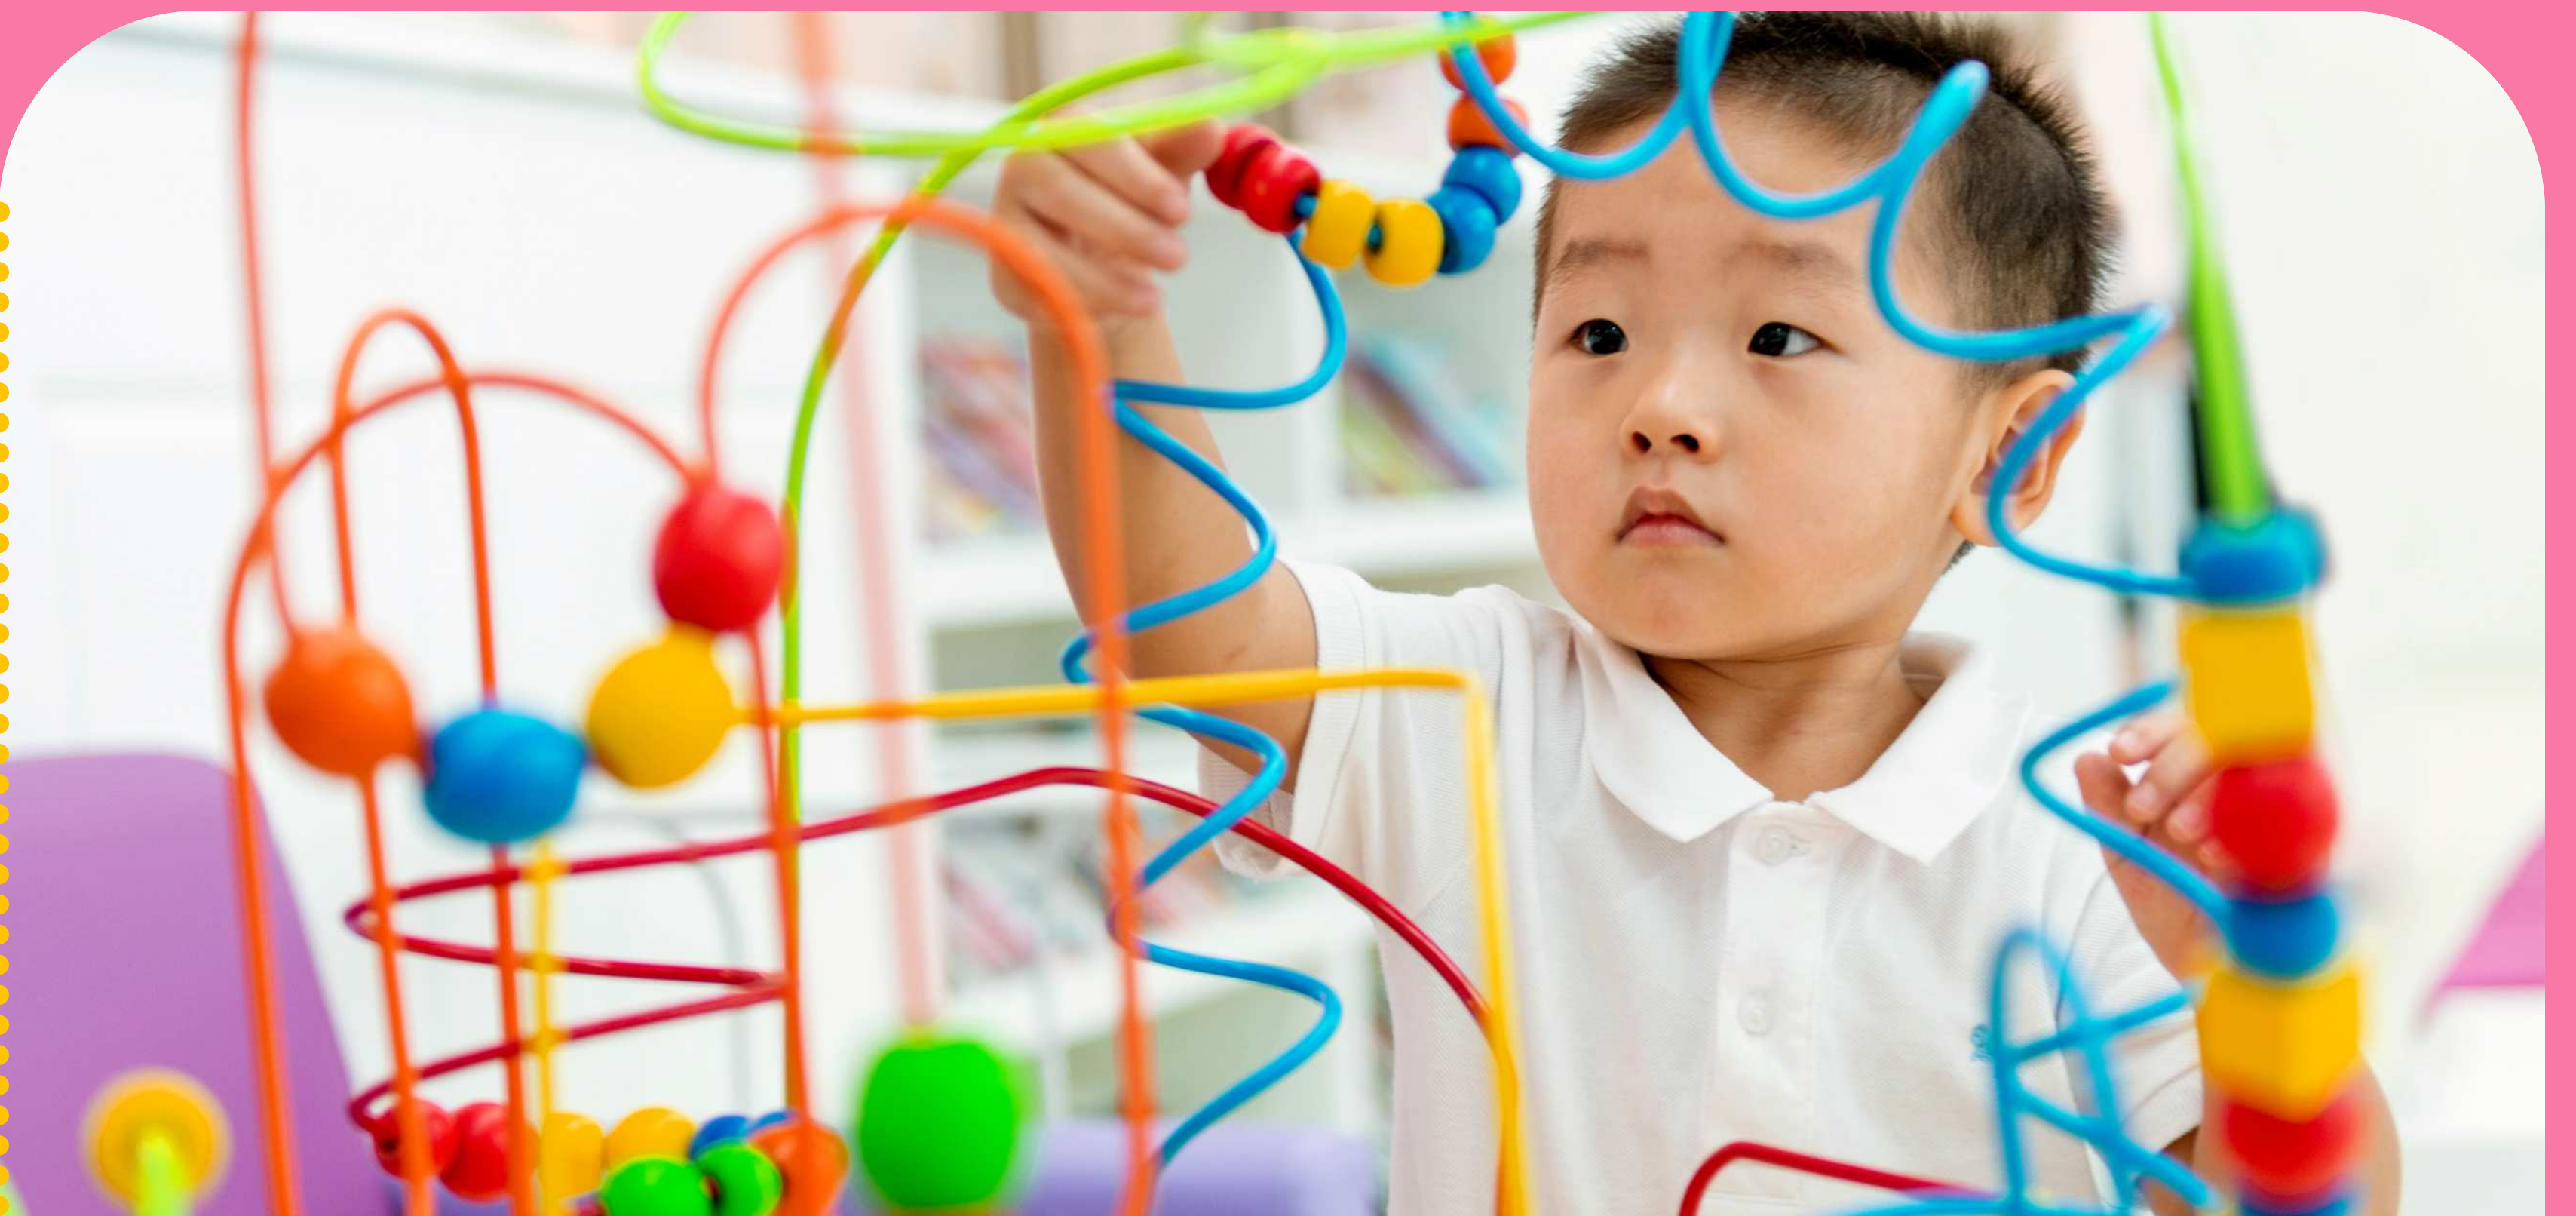

## Social Skills Development

From sharing, taking turns, cooperation, and building lifelong friendships, these are essential social skills that will lay the foundation of communications for every child. Every interaction is an opportunity to practise conversing with openness and kindness.

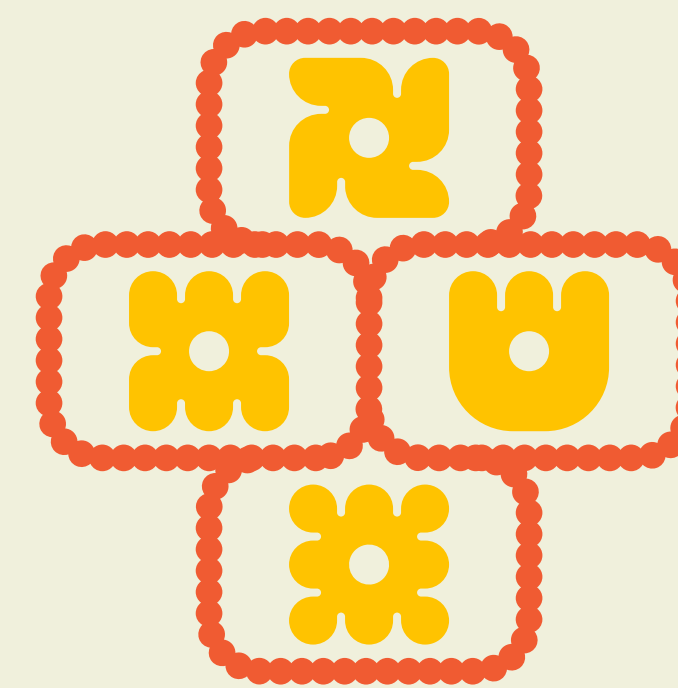

### Fostering Bonds

Ability to grow a network of lifelong friendships

## Physical Development

With both outdoor and indoor facilities to promote gross and fine motor skills, coordination, as well as overall physical fitness, we aim to support your child's healthy growth, teaching them to be confident with every movement.

### Growing Strong

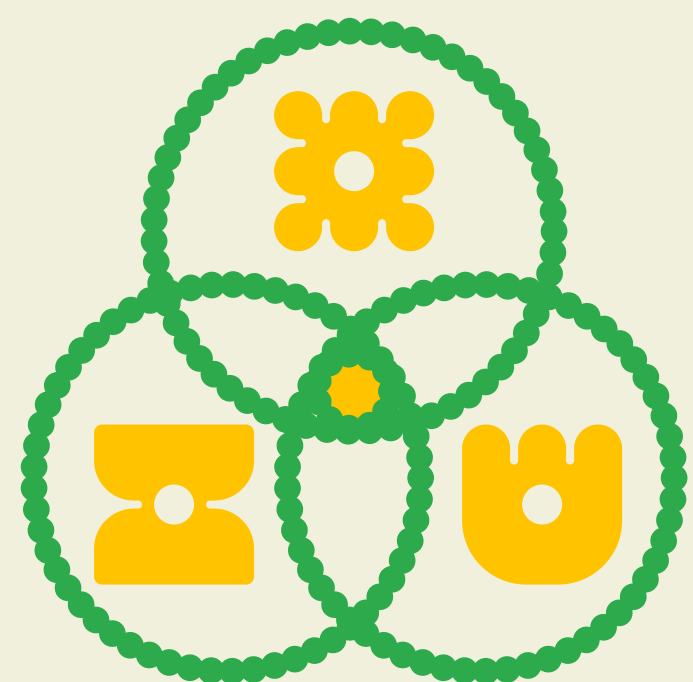

Physical health, fitness, and confidence in overall movement

## Emotional Development

Learning to navigate their emotions well through various social situations is key to building a strong emotional foundation. Whether it's emotional intelligence, self-regulation, empathy, and building resilience, these will prepare them well for any future challenges.

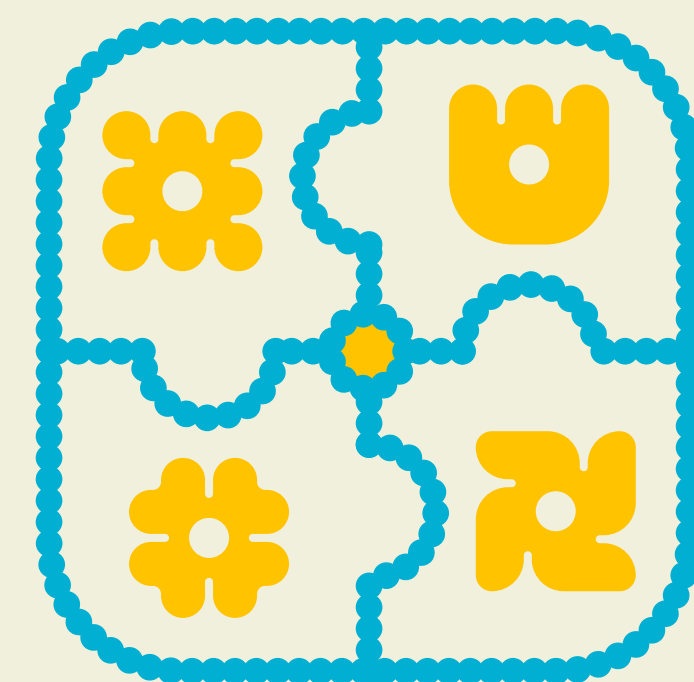

### Nurturing Expressions

Flexibility to navigate challenging environments

## Creative Development

Creative expression allows for children to explore ideas through art, music, dance, and imaginative play. These explorations will encourage children to better express themselves and develop a lifelong appreciation for the arts.

### Sparkling Creativity

Freedom to express themselves in creative ways

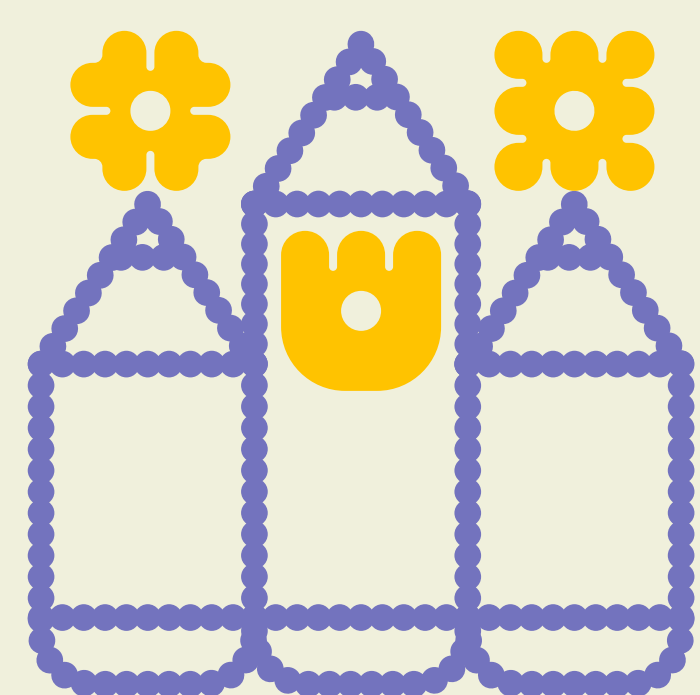

# Key Learning Focus

## School Readiness

We lay the groundwork necessary for your child to experience a smooth transition to formal education by developing early literacy, numeracy, and social skills. Your child will feel confident in journeying onwards to the next chapter.

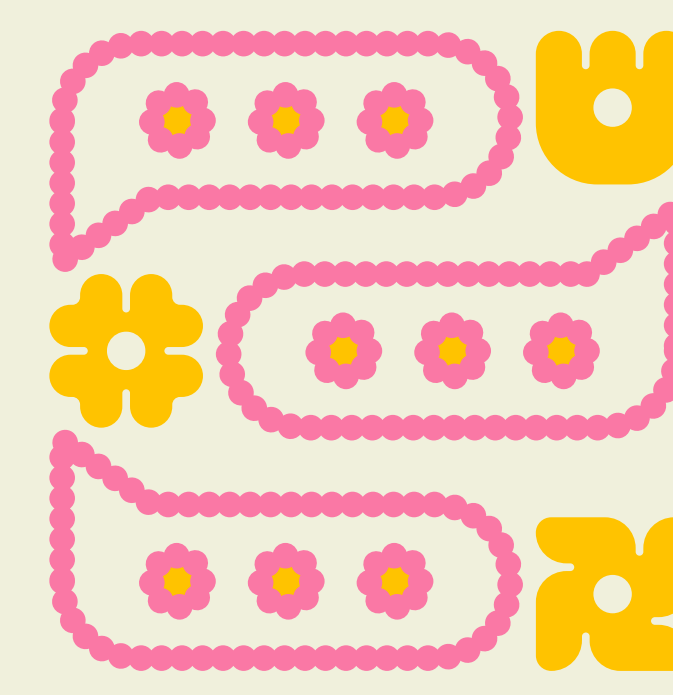

### Glowing Confidence

Self-confidence and general awareness to help with transitions

## Language and Communication Skills

We encourage effective collaborations and active listening, especially from the perspective of other individuals or groups, thus helping your child to express themselves confidently and creatively in more than one language and many other ways.

### Illuminating Conversations

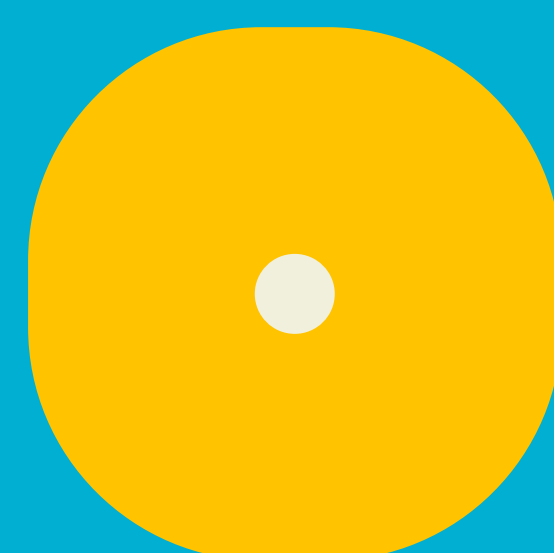

New language skills to empathise with different cultural traditions

# Our Programme

## Pre- Nursery

2-3 y/o

• Learning through manipulative play, arts, crafts, and music movement

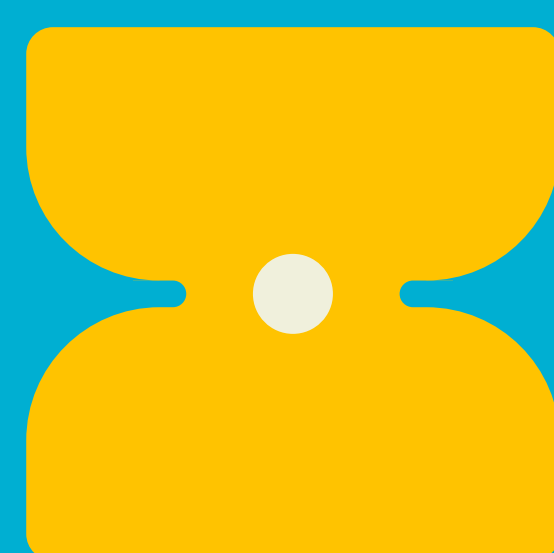

• Develop eye-hand coordination

• Promote gross and fine motor skills through stages of sensory awareness

• Exposed to social, emotional, and physical interactions to help grow cognitive development

## Early Years 1

4 y/o

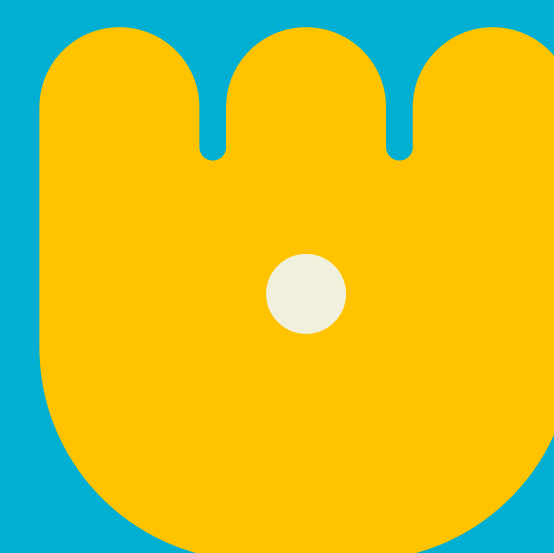

• Learning through functional play about everyday objects and their specific uses

• Develop first steps of independence and self-help skills, which includes:

- Washing
- Dressing
- Going to the toilet
- Eating & drinking

## Early Years 2

5 y/o

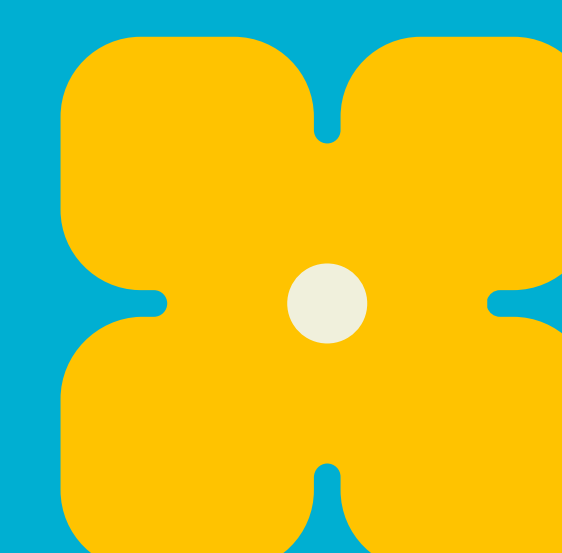

• Learning through interaction with their environment

• Includes diverse learning activities such as:

- Complement creative thinking
- Problem-solving
- Empathetic collaboration
- Curious investigation
- Decision-making

## Kindergarten

6 y/o

• Learning through daily activities based on our integrated curriculum to prepare for a smooth transition to primary school

• Daily activities will involve the development of these aspects:

- Social
- Emotional
- Cognitive
- Creative
- Language
- Physical

Half-Day Programme

7:30a.m. – 12:30p.m.

Full-Day Programme

7:30a.m. – 6:30p.m.

## Indoor Playground

This space is designed to encourage active play and sensory play, so your child will get all the fun and more, as they develop themselves through play.

## Multipurpose Hall

Activities such as assemblies, performances, or special events take place here, where children are able to interact with others beyond their regular classrooms.

## Breakout Area

A comfortable and conducive area for conversations to happen and friendships to form. This is where children and adults alike are able to build bonds.

## Nature Nook

This little corner of nature is perfect for little ones to connect and engage with nature, transforming them into curious and tiny explorers.

## Open Concept Classroom

An interactive and conducive classroom which allows children to learn freely and promotes the sharing of skills among teachers and students.

## Library

We're equipped with plenty of reading materials in English, Mandarin, and Bahasa Malaysia, that will help children develop a healthy reading habit. Whether it's , storybooks, encyclopaedias, comics, we welcome all kinds of reading!

## Creative Zone

With plenty of resources available, children can draw, write, craft, and make anything fueled by their imaginations. from colour pencils to clay, we have it all.
