1. Print out the template.

Print out this square pyramid template on A4 green paper or cardstock. The printable includes 3 pyramid templates of varying sizes.

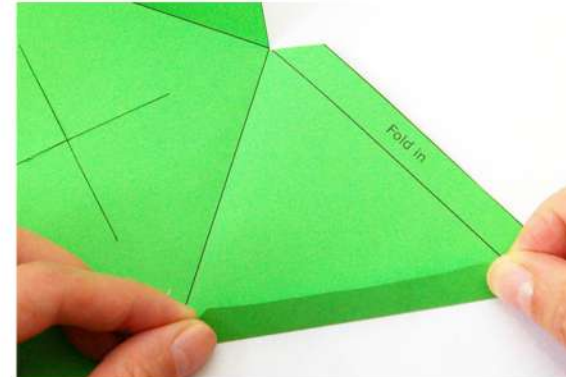

4. Fold the sides towards the center.

Fold the sides inwards and unfold all three. Now all 4 triangles are properly creased at the base.

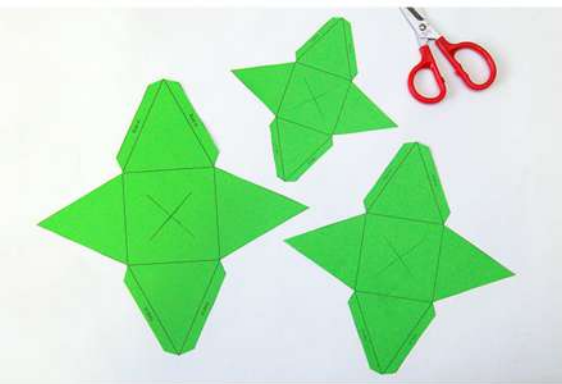

2. Make cross slits at the center.

Use a craft knife to make cross slits following the "X" lines at the center of each square pyramid.

5. Fold the side tabs.

Notice how two of the triangles have a pair of side tabs? Fold each side tab inwards.

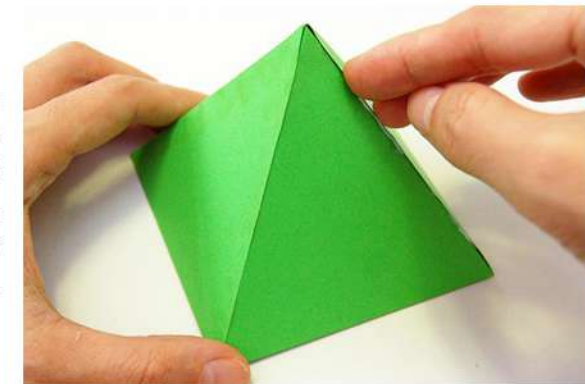

3. Cut out the three templates.

Cut out all 3 square pyramid templates.

6. Start to glue the sides together.

Bring one triangle with side tabs up towards the center. Bring an adjacent triangle up towards the center as well.

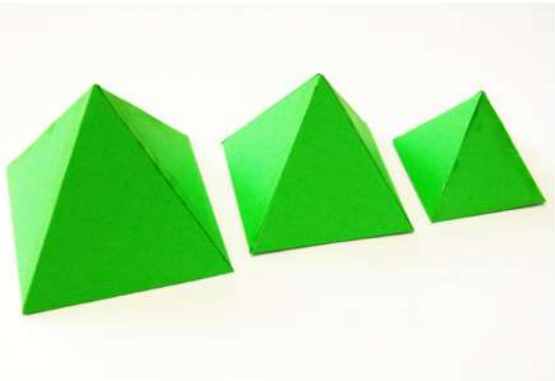

Glue the two triangles together by the side tab.

7. Assemble the two other pyramids.
Assemble the 2 other templates following the previous steps to come up with 3 square pyramids of different sizes.

10. Stack them together.
Position the smaller sized pyramid on top of the larger pyramid

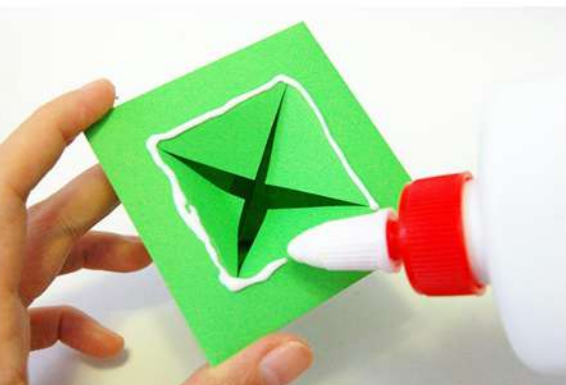

8. Push in the flaps.

Turn the middle-sized pyramid upside-down so that the base is facing towards you. Push the flaps at the center inwards.

11. Create a tree trunk.

Create a tree trunk by inserting a toilet paper roll through the cross slits. Push the TP roll until the top touches the inside walls of the pyramid.

9. Apply glue.

Apply glue lines connecting the four corners of the cross slits.

12. Decorate the tree!
Now all your tree needs is some holiday decorations. Be creative, and decorate your tree to your own liking.
